Re: Distribution of Securities out of Control Block Holdings Timely Filing of Accurate Insider Reports

The Ontario Securities Commission reminds issuers and others that the definition of "distribution" in The Securities Act, 1978, includes a trade in previously issued securities to employees of the issuer, and that the "employee" exemptions in sections 34(1)19 and 71(1)(n) do not extend to sales out of control block holdings. These exemptions do not extend to business or professional associates of the issuer who are not employees. Unless such distributions are isolated trades within the scope of sections 34(1)2 and 71(1)(b), or have been previously exempted after application to the Commission, the usual registration and prospectus requirements of the Act must be met.

An investigation has been completed into trades in the common shares of Vulcan Industrial Packaging Limited. Albert Cavan and the late George Zies, in combination with 337049 Ontario Limited, a company they control, hold over 20% of the common shares of Vulcan. In the late summer and early fall of 1979, the numbered company sold 32,160 Vulcan shares to a group composed principally of Vulcan employees. These sales were a "distribution" within the meaning of the Act, but the registration and prospectus exemptions were not met nor was an exemption obtained.

The Commission was alerted to these trades when insider trading reports were filed. The reports were inaccurate in their description of both the purchase price and number of shares sold. Amended reports have now been filed.

The Commission emphasizes that one of the primary purposes of The Securities Act is to ensure that members of the public, including employees, are provided with all adequate current information in connection with any offering of securities. The Commission must exercise its function to protect investors within the four corners of the Act and, accordingly, stresses that an appropriate exemption must be obtained in every case of trades out of a control block to employees and others.

The inaccuracies in reporting the trades by the insiders exacerbated this problem. The Commission has previously emphasized the importance it attaches to the necessity for timely and accurate insider trading reports and takes this opportunity to stress the seriousness with which it regards failure to do so.

With publication of this notice, it is to be anticipated that conduct of the type described in future may result in formal public disciplinary hearings under the Act. The controlling shareholders have consented to the publication of this notice, and have agreed to pay the costs of the Commission's investigation estimated and fixed at \$4,500 (18 days at \$250 per day).

The Commission is pleased to announce that Ms. A. Lyn Howes, B.A., M.B.A., as of January 5, 1981, will be working at the Commission for the next twelve or fifteen months, presently with the Corporate Finance Branch. Lyn is on leave from the Underwriting Department of Walwyn Stodgell, Cochran, Murray Limited and the Commission thanks that firm for its cooperation.

POLICIES

NATIONAL POLICY NO. 32 PROSPECTUS WARNING RE: SCOPE OF DISTRIBUTION CORRECTION

In Supplement "C" to Weekly Summary, week ending 21st November, 1980 the Commission published National Policy No. 32.

Due to an error the legend appearing in the last paragraph of the policy is not the correct version.

Please substitute the following corrected version of the Policy in your binder.

NATIONAL POLICY NO. 32 PROSPECTUS WARNING RE: SCOPE OF DISTRIBUTION

Background

The Canadian Securities Administrators at their meeting on October 30, 1980, concluded that it would be useful to adopt the widespread practice of noting through a legend at the top of preliminary and final prospectuses through which it is intended to effect distributions in more than one jurisdiction that those securities may lawfully only be sold in those jurisdictions in which a prospectus has been accepted for filing. In addition, it was thought that the warning should also note that the securities could only be distributed in that jurisdiction by persons registered in the jurisdiction.

Policy

Where it is proposed to distribute securities through a prospectus in more than one Canadian jurisdiction the following legend shall appear at the top of the front page of the preliminary prospectus and prospectus:

"This prospectus constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and, therein only by persons permitted to sell such securities."

UPON the application of Elks Stores Limited ("Elks") to the Ontario Securities Commission ("Commission") pursuant to section 79(a)(i) of The Securities Act, 1978, S.O. 1978, c.47 as amended (the "Act");

AND UPON the Commission having been advised that Elks, on the basis of information received from its auditors, is concerned that it cannot rely on the accuracy of the interim financial statements of Elks for the interim financial statements of Elks for the second and third quarters of the fiscal year of Elks ended January 26, 1980;

AND UPON the Commission being of the opinion that to grant this order would not be prejudicial to the public interest;

IT IS ORDERED pursuant to section 79(a)(i) of the Act that Elks may omit from the interim financial statements for the second and third quarters of the current fiscal year of Elks the comparative financial statements for the corresponding quarters of the fiscal year of Elks ended January 26, 1980.

CANADIAN SUPERIOR OIL LTD.

UPON the application of Canadian Superior Oil Ltd. ("Canadian Superior") to the Ontario Securities Commission ("Commission") for an order pursuant to section 82 of The Securities Act, 1978, S.O. 1978, c.47 as amended (the "Act");

AND UPON it being represented that Canadian Superior now has fewer than fifteen security holders resident in Ontario;

1. By a vote of the security holders of Pinetree, entitled to vote, taken at the next annual

meeting of the security holders, a majority of the votes cast shall approve of this exemption, but the result of such vote, in any case, shall be reported to the Commission in writing within three days of the taking of the vote; and

2. This exemption shall terminate thirty days after the occurrence of a material change in the affairs of Pinetree unless the Commission is satisfied that the exemption should continue.

LEISURE WORLD NURSING HOMES LIMITED

IT IS ORDERED pursuant to section 79(b)(iii) of the Act that Leisure World be and hereby is exempted from the requirements of the Act to file with the Commission and send to its security holders resident in Ontario interim financial statements for each of the first and third quarters of each of the fiscal years of Leisure World provided that:

2. This exemption shall terminate thirty days after the occurrence of a material change in the affairs of Leisure World unless the Commission is satisfied that the exemption should continue.

WINDFALL OILS & MINES LIMITED

UPON the application, dated August 22, 1980, (the "Application") of 421295 Ontario Limited (the "Applicant") to the Ontario Securities Commission (the "Commission") pursuant to section 73 of The Securities Act, 1978, S.O. 1978, c. 47, as amended (the "Act"), for a ruling that the proposed sale by the Applicant of up to 400,000 common shares (the "Common Shares") of Windfall Oils & Mines Limited ("Windfall") (the "Intended Trade") is not subject to section 52 of the Act;

AND UPON reading the application and the recommendation of the Commission's staff;

AND UPON it appearing to the Commission that

1. Persons having more than a 5% interest in the Applicant are Phillip S. Broadhurst, Dale Buell, Edward J. Buell Jr., Michael Dispirit, Francis Charles Hornung, Chester Kiryliw and International Energy Systems, a company controlled by Edward J. Buell Jr. (the "Applicant's Shareholders");
2. Edward J. Buell Jr., Dale Buell and International Energy Systems Inc. are associates and hold, collectively, a 47.5 percent interest in the Applicant;
3. The Directors of the Applicant are Philip S. Broadhurst, Edward J. Buell Jr. and John Ball;
4. The Applicant controls Windfall and directly and beneficially owns 1,600,000 Common Shares representing 35.6 percent and upon completion of the Intended Trade will own directly 1,200,000 Common Shares representing 26.7 percent of the 4,500,000 issued Common Shares of Windfall;
5. The Applicant, by arm's length purchase, acquired 1,000,000 Common Shares of Windfall on August 2, 1979 at a price of \$0.20 per Common Share and, by private placement, acquired a further 350,000 Common Shares on April 30, 1980 at a price of \$0.86 per Common Share and, by private placement, acquired a further 250,000 Common Shares on November 14, 1980 at a price of \$1.56 per Common Share;
6. The proceeds of the above-referred private placement (the "Private Placements"), aggregating \$691,000, have and are being used by Windfall as a source of funding for an exploration program on gold prospects (the "Prospects") held by it in Echo and McAree Townships in Northwestern Ontario;
7. Based upon exploratory drilling results encountered in 1980, further exploratory and developmental work is indicated and additional financing is required for such purpose;
8. The Applicant wishes to make the Intended Trade in order to recover its capital investment in Windfall and to obtain funds in anticipation of participation in the further financing requirements of Windfall;

9. Windfall is a reporting issuer under the Act and the Common Shares are listed and posted for trading on the Toronto Stock Exchange; and
10. By letter, dated September 2, 1980, and confirmed December 18, 1980, the Toronto Stock Exchange has indicated that it would support a favourable ruling that the Intended Trade would not be in the course of a distribution to the public;

AND UPON the Commission being satisfied that so to rule would not be prejudicial to the public interest;

NOW THEREFORE it is ruled that the Intended Trade is not subject to Section 52 of the Act;

SUBJECT TO THE TERMS AND CONDITIONS THAT:

1. Windfall is not in default of any requirement of the Act or the regulations thereunder as of the date of the commencement of the Intended Trade and that the Intended Trade shall cease forthwith if any default shall occur prior to the completion of the Intended Trade;
2. The Applicant files with the Commission, to the attention of the Market Analyst, and with the Toronto Stock Exchange at least seven days and not more than fourteen days prior to the commencement of the Intended Trade, a notice of intention in the form of Form 23 to the regulations made under the Act (the "Form 23") comprising
 - a) a notice of intention to sell, and
 - b) a declaration, certificate and undertaking signed by the Applicant not more than twenty-four hours prior to its filing;
3. The Form 23 required to be filed under paragraph 2 shall be renewed and filed at the end of sixty days after the original date of filing and thereafter at the end of each twenty-eight day period so long as any of the Shares specified in the original Form 23 have not been sold or until notice has been filed that the Shares so specified or any part thereof are no longer for sale;

4. The Applicant files within three days after the completion of any trade made in the course of completing the Intended Trade a report of such trade in the form prescribed under Part XX of the Act;
5. No effort is made to prepare the market or to create a demand for the Shares and no extraordinary commission or other consideration is paid in respect of the Intended Trade;
6. The Intended Trade is effected through the facilities of The Toronto Stock Exchange in accordance with its requirements; and
7. This ruling shall expire forthwith upon the occurrence of any material change in the affairs of Windfall and shall be of no further force and effect thereafter, unless upon further application by the Applicant, the Commission rules that this ruling is revived to be effective from and after the occurrence of such material change.

REVISED INTERIM ONTARIO POLICY NO. 3-48

Management's Report Disclosing Contingencies and Going Concern Considerations in Financial Statements

In the Weekly Summary, week ending October 17th, 1980 and November 14th, 1980 the Commission published Policy No. 3-48 with a request for comments.

Taking into consideration the comments received the Commission has revised the policy.

A number of commentators expressed a need for clarification as to the circumstances in which the policy applies. The question asked was whether the report should be given in all cases when contingencies appear in the financial statements or only in cases which previously would have given rise to a "subject to" qualification. The policy is intended to require the report in cases which previously would have given rise to a "subject to" qualification. The revised policy offers issuers an alternative method of dealing with this matter which will relieve management of the need to make the assessment of whether a contingency or going concern consideration would have given rise to a "subject to" qualification.

In addition the Commission wishes to emphasize again that it is not disagreeing with the new CICA pronouncement concerning contingencies, and going concern considerations. At issue is the timing of bringing the new standard into effect, and in the Commission's view, the need to educate readers that a change in the reporting standard occurred. For that reason the policy will remain an interim measure and will be withdrawn at a future date.

The Commission is conducting discussions with the CICA as to how to deal with this particular aspect in the future.

Please substitute the following page containing the revised policy in your binder.

REVISED INTERIM ONTARIO POLICY NO. 3-48

MANAGEMENT'S REPORT DISCLOSING CONTINGENCIES AND GOING
CONCERN CONSIDERATION IN FINANCIAL STATEMENTS

Background

The auditing standards recommended by The Canadian Institute of Chartered Accountants as of November 1, 1980, will no longer require auditors, when satisfied that the accounting for and disclosure of contingencies and going concern considerations in the financial statements is otherwise in accordance with generally accepted accounting principles, to draw attention to contingencies and considerations that may affect the financial position of a company being reported upon by expressing a reservation of opinion in the auditor's report accompanying the financial statement.

Interim Policy

In view of the reliance that the readers of financial statements audited by Canadian accountants have come to place on the presence or absence of such reservations of opinion in the past the Commission, during an interim period within which it proposes reviewing this development insofar as audited financial statements required to be filed under The Securities Act, 1978, has determined that where there are contingencies and going concern considerations that would affect the financial position of the issuer reported upon effective November 1, 1980, and until further notice, there shall be included on or immediately adjacent to the page on which the auditor's report appears Management's Report on such contingencies and considerations in the form set out below or in the form first published on October 17, 1980.

Where the issuer includes on the face of the Balance Sheet a reference to the note(s) which discloses such contingencies and going concern considerations (as suggested in section 3290 of the Canadian Institute of Chartered Accountant's Handbook) such a "Management's Report" is not required.

Form of Report

MANAGEMENT'S REPORT OF FINANCIAL STATEMENTS

TO SHAREHOLDERS

Contingencies (and/or going concern considerations, where applicable) of the company are disclosed in note(s) * to the Financial Statements.

FOOTNOTE:

The Commission recognizes that it may sometimes be necessary for persons making a written submission in response to a request for comments to request that it be treated as confidential. For example, it may contain sensitive statistical information. However, the Commission hopes that requests for confidentiality will be restricted, for example by including confidential information in a separate submission or schedule and limiting the request to that separate document. Further, the Commission wishes it understood that it will take into account the unwillingness of the person concerned to make a submission available for public debate in determining what weight should be attached to the arguments advanced. Of course, other considerations may apply where the submissions are made in connection with a disciplinary or other proceeding of a quasi-judicial nature.

DRAFT
ONTARIO POLICY 3-37

1. BACKGROUND

(a) Purpose of the Policy

The Commission intends Policy 3-37 to ensure that participants in the capital market, in particular minority security holders, are consistently treated in a fair and even handed manner.

This policy contains provisions which were included in Ontario Policy 3-37, Interim OSC Policy 3-51 and Interim OSC Policy 3-52. The requirements of this policy evidence positions of the Commission developed in response to particular fact situations.

Ontario Policy 3-37 was developed to deal with going private transactions, issuer bids and insider bids. A number of matters which had been included as part of Ontario Policy 3-37 are now provided for in The Securities Act, 1978 (the "Act") and the regulations made thereunder (the "Regulation"). The Commission has attempted to include all of those matters included in the previous 3-37 which in its view are important to ensure that going private transactions, issuer bids and insider bids may be implemented on a basis that is not unfair to minority security holders, while avoiding rules that might be so restrictive as to preclude desirable transactions.

Interim OSC Policy 3-52 is directed to forms of business and asset combinations of a complex nature or which might be perceived to provide a controlling security holder with a benefit which is not available to other security holders. It reflects the concerns of the Commission to protect minority security holders by use of the requirement of minority approval.

Interim OSC Policy 3-51 is designed to meet, among other concerns, the problems of advantages to controlling security holders arising out of rights offering situations.

The Commission recognizes that a number of requirements including enhanced disclosure, independent valuations and "majority of the minority" approval, are important techniques to ensure that security holders are treated in a fair and even handed manner. A number of these matters are described in section 3 of this policy under the heading "Definitions" and set out as requirements in the appropriate sections of the policy.

(b) Interpretations

By its nature, this policy admits of variation to meet special circumstances. The Director and the Commission have made a number of decisions in respect of the policy matters contained in the predecessors to this policy, particularly the previous 3-37. The Commission feels that it is useful to indicate a number of interpretations and exemptions which it believes are applicable to this policy.

(i) The purchase of issued common shares by a corporation is permitted in certain circumstances under the provisions of section 39 of The Business Corporations Act (Ontario) (the "OBCA"). Purchases made under subsection 39(1) of the OBCA for the purpose of eliminating fractions of shares or for the purpose of collecting or compromising indebtedness to the corporation are considered by the Commission to be exempt from this policy.

(ii) The Commission is of the view that the valuation requirement and valuation procedures of this policy are applicable in the case of an arrangement involving a going private transaction under sections 193 to 195 of the OBCA. The valuation will assist shareholders to make an informed business judgment in order to vote on the scheme of arrangement.

(iii) The Commission is prepared to exempt transactions from the provisions of the policy where there are minimal Ontario shareholdings. A number of such transactions have been exempted where they have been made by issuers incorporated in the United States in full conformity with applicable American law and shareholdings in Ontario have generally been below one per cent of the outstanding shares.

(iv) The Commission will entertain exempting the valuation requirement in a going private transaction where there is a minimal minority position and the cost to the issuer would be undue in the circumstances. In certain instances the valuation requirement was waived where the controller held in excess of ninety-nine per cent of the outstanding securities.

(v) Unjustifiable minority tactics in a situation involving a minimal minority position has also caused the Commission to waive requirements of the policy. In at least one such instance the Commission exempted the controller from providing an appraisal right in a going private transaction.

(vi) It is the Commission's view that this policy can be

complied with without conflict with the provisions of the Canada Business Corporations Act ("CBCA"), particularly the provisions dealing with "take-over bids" as defined in the CBCA. Compliance with the CBCA requirements will generally be viewed as compliance with the policy provided that any additional disclosure required by the policy is included in the material distributed to security holders and filed with the Commission.

(vii) The Commission is willing to accomodate issuers subject to legislation of other jurisdictions and may waive the requirements of this policy where it is applicable but where compliance with the legislation of such other jurisdictions offers adequate protection to security holders in Ontario.

2. ROLE OF THE COMMISSION

(a) The Commission continues to encourage prior discussion with the Director when new or novel types of transactions involving areas of concern to the Commission are contemplated in order to ensure compliance with the Act, the Regulation and this policy.

(b) The Director may determine and confirm in writing that this policy or any part of this policy will not apply to specific transactions or certain aspects of specific transactions that come within the ambit of the requirements of this policy. Any person or company directly affected by a determination of the Director may appeal from that determination to the Commission. The Commission will treat such an appeal in the same manner as a review of a decision of the Director under subsection 8(2) of the Act.

(c) The Commission rejects the proposition that going private transactions or issuer bids or insider bids or any of the other types of transactions considered in this policy are inherently unfair, even if the price offered in certain transactions does not reflect underlying asset and earnings values. It does recognize that certain of such transactions are capable of being unfair and abusive. The Commission might conclude, in a situation where it can be expeditiously demonstrated that a transaction is abusive, that its responsibilities for investor protection require it to become involved in the transaction if and to the extent that its statutory authority permits.

3. DEFINITIONS

(a) This policy makes use of various terms, the definitions of which are found in the Act and the Regulation. Those definitions are adopted for the purposes of this policy and where used herein have the same meanings as in the Act or Regulation.

The following provisions of the Act or Regulation are of particular relevance to the policy:

- (i) clause 88(1)(d) of the Act: definition of "issuer bid";
- (ii) clause 88(1)(k) of the Act: definition of "take-over bid";
- (iii) subsection 88(2) of the Act: exempted take-over bids;
- (iv) subsection 88(3) of the Act: exempted issuer bids;
- (v) clause 163(1)(a) of the Regulation: definition of "going private transaction";
- (vi) clause 163(1)(b) of the Regulation: definition of "participating security";
- (vii) clause 163(1)(c) of the Regulation: definition of "valuation"; and
- (viii) clause 163(1)(d) of the Regulation: definition of "insider"; the definition of "insider" in clause 163(1)(d) of the Regulation is the applicable definition for the purposes of the insider bid provisions of this policy.

(b) In this policy, "insider bid" means a take-over bid made by any insider of the offeree company or any associate or affiliate of an insider.

(c) In this policy, "valuation procedures" means, with respect to any valuation required under the Regulation or this policy, the following:

- (i) A summary of the valuation should be included in the material sent to security holders in connection with the transaction. Copies of the complete valuation should be available for inspection and the material provided to security holders should indicate that a copy of the valuation will be sent to any registered security holder upon request for a nominal charge sufficient to cover printing and postage. Where the Director is of the opinion that disclosure of information in the valuation would cause a detriment to the issuer or its security holders that would outweigh the benefit of the information to the prospective recipients, the Director may permit the omission of the information from the copies to be so made available.

(ii) The summary of the valuation to be included in the material should disclose the basis of computation, the scope of the review, the relevant factors and their values and key assumptions on which the valuation is based. The summary of the valuation should also disclose the extent to which any advantage to a person or company continuing as a security holder after completion of the transaction has been considered in the valuation.

(iii) The valuation shall be at a date not more than 120 days prior to the date of the transaction and shall contain appropriate adjustments for material intervening events. Where a valuation at a date more than 120 days prior to the date of the transaction is available it may, if accepted by the Director, satisfy the valuation requirement if the summary of the valuation is accompanied by a letter addressed to the security holders confirming the valuation and confirming that the valuer, after making due investigation, has no reasonable ground to believe that any intervening event has materially affected the value or range of values determined in such valuation or, if there has been such an event, describing it and stating the resultant change in the value or range of values in the valuation.

(d) In this policy, "waiver by the Director" means, with respect to any valuation required under the Regulation or this policy, a determination by the Director that a valuation is not required where he is satisfied that:

(i) the price offered was arrived at in an arm's length transaction or negotiation whereby control of the issuer has changed or will change hands within one year prior to the transaction, and two directors, on behalf of the board of directors, and two senior officers certify that no prior event in the affairs of the issuer undisclosed at the time of the initial transaction or negotiation had occurred which if disclosed could reasonably be expected to have affected the price arrived at in the arm's length transaction or negotiation and that no intervening event in the affairs of the issuer has occurred which could reasonably be expected to increase materially the value of the issuer. Examples of such transactions include a take-over bid or a private agreement resulting in the change of control of the issuer. The Director may determine that arm's length transactions for less than a control block (for example, an arm's length purchase by the controlling security holder of a sizeable block of the minority-held securities) will qualify for this exception from the valuation requirement. Evidence will probably be required that the selling security holder in such an instance had such knowledge of the issuer that other than purely market considerations would likely have been considered in arriving at the

price. The reason for insisting generally upon a transaction involving a control block if it is to displace the valuation requirement in a subsequent transaction is that typically, an offeror who seeks to acquire control of an issuer will have considered underlying values, as will the selling security holder; in transactions for less than control, purely market considerations or financial considerations peculiar to the selling security holder are much more likely to have constituted the decisive factors;

(ii) the price offered is not less than the fair value of the securities concerned, based on factors which are appropriate in the circumstances; or

(iii) after the bid those security holders who decline the offer will have available a market to dispose of their securities that is not materially less liquid than prior to the bid. Where an issuer wishes to rely upon this exception, the Director should be provided with an opinion from a registered dealer with respect to the liquidity of the market in the securities both before and after the proposed bid and, if the securities of the issuer are listed, a letter from The Toronto Stock Exchange or other stock exchange where the securities are listed indicating the concurrence of such exchange.

(e) In this policy, "minority approval" means the votes of security holders cast in favour of a transaction other than the votes attaching to:

- (i) securities held by affiliates of the corporation;
- (ii) securities the beneficial owners of which will, consequent upon the transaction, be entitled to a per security consideration greater than that available to other holders of affected securities of the same class; and
- (iii) securities the beneficial owners of which, alone or in concert with others, effectively control or will control the issuer and who, prior to distribution of the material to security holders, entered into or agreed to enter into an understanding that they would support the transaction.

The security holders whose votes constitute minority approval are referred to in this policy as the "minority".

In the determination of minority approval in a multi-stage transaction (for example, a transaction in which an offer to purchase the minority shares is followed by a reorganization which constitutes a going private transaction) those who accept the offer at the first or any subsequent stage (a "prior transaction") prior to

the transaction which has a requirement for minority approval (the "subject transaction") may be included in the calculation of the minority approval if the intent to effect the subject transaction was clearly disclosed at the time of the prior transaction and a summary of a valuation was also provided at the time of the prior transaction. Where such intent is clearly disclosed but no valuation is required in the prior transaction by reason of the availability of one of the exemptions in the Regulation or this policy and the consideration per security in the subject transaction is at least equal in value to the consideration per security paid in the prior transaction, then the acceptors of the offer in the prior transaction may similarly be included in the calculation of minority approval. The Commission is of the view that where the income tax consequences to the security holder differ significantly between acceptance of an offer in a prior transaction and participation in the subject transaction adequate disclosure of the tax consequences to security holders of the prior transaction and the subject transaction should be made at the time of the prior transaction.

(f) Disclosure

In this policy, a requirement to include:

(i) "Form 34 disclosure" means that the disclosure requirements of Form 34 of the Regulation (the form for an Issuer Bid Circular) should be met, to the extent that such requirements are applicable, in the material prepared for distribution to security holders in connection with a transaction. The Commission recognizes that appropriate modifications will be required in many cases in view of the fact that Form 34 specifically relates to issuer bids.

(ii) disclosure of "prior valuations" means that an outline of any existing independent appraisal or valuation and of any material non-independent appraisal or non-independent valuation, including appropriate descriptions as to the source and circumstances under which each was prepared, known to the person or company carrying out the transaction regarding the issuer, its material assets or securities prepared within the two years preceding the date of the transaction should be included in the material distributed to security holders.

(iii) disclosure of "judicial developments" means that the material prepared for security holders should contain a reference to current legal developments, if any, relating to the type of proposed transaction.

4. GOING PRIVATE TRANSACTIONS

(a) Valuation

Subject to a waiver by the Director, a valuation of the issuer must be prepared in connection with a going private transaction in accordance with the valuation procedures. The valuation shall be filed with the Commission when the material being distributed to security holders is filed with the Commission.

(b) Minority Approval

(i) Unless the exception set out in (ii) below is applicable, an issuer shall not carry out a going private transaction unless, in addition to any other required security holder approval, the transaction obtains minority approval of each class of affected securities in accordance with the following provisions:

1. If the consideration to be received by a holder of an affected security of the particular class is,
 - i. payable wholly or partly other than in cash or a right to receive cash within thirty-five days after the approval of the going private transaction, or
 - ii. payable entirely in cash and is less in amount than the per security value or the mid-point of the range of per security values, arrived at by the valuation prepared in connection with the going private transaction,

then the approval shall be given by two-thirds of the votes cast by the minority.

2. In cases other than those referred to in paragraph 1, the approval shall be given by a majority of the votes cast by the minority.

(ii) If the controllers already hold 90% or more of the participating securities of the issuer at the time the going private transaction is initiated, the requirement for minority approval will not apply to the transaction if a statutory appraisal remedy is available to the minority or if a substantially equivalent enforceable right is made available to the minority.

(c) Disclosure

(i) Form 34 disclosure must be included in the material sent to security holders in connection with the going private transaction. In particular, the disclosure required by the following items in Form 34, as modified, are considered by the Commission to be relevant in most going private transactions although they may not be specifically required in, for example, an information circular:

| | |
|---------|--|
| Item 10 | Reasons for the transaction |
| Item 11 | Volume of Trading in the Securities, the interest in which is to be Terminated |
| Item 14 | Benefits from the Going Private Transaction |
| Item 15 | Material Changes in the Affairs of the Issuer |
| Item 16 | Other Benefits to Insiders, Affiliates and Associates |
| Item 20 | Valuation |
| Item 21 | Approval |
| Item 22 | Previous Distribution |
| Item 24 | Tax Consequences |
| Item 25 | Expenses of the Going Private Transaction |

(ii) Disclosure of prior valuations must be included in addition to the valuation required under 4(a) above.

(iii) A reference to judicial developments, if appropriate, should be included in the material prepared for security holders.

(d) Private Companies

The requirements of section 4 of this policy, relating to going private transactions, do not apply to private companies.

5. ISSUER BIDS(a) Valuation

Subject to a waiver by the Director, a valuation of the issuer must be prepared in connection with an issuer bid in accordance with the valuation procedures. The valuation shall be filed with the Commission when the Issuer Bid Circular being distributed to security holders is filed with the Commission.

(b) Disclosure

(i) Form 34 disclosure is mandated by the Act and Regulation.

(ii) Disclosure of prior valuations must be included in the Issuer Bid Circular in addition to the valuation required under 5(a) above.

(iii) A reference to judicial developments, if appropriate, should be included in the Issuer Bid Circular.

(c) Securities Exchange Issuer Bid

The combined effect of subsection 95(3) of the Act and subsection 167(2) of the Regulation where an issuer bid provides that the consideration for the securities is to be, in whole or in part, other securities of the issuer is to require a preliminary prospectus and prospectus in respect of the securities which form the consideration. The preliminary prospectus and prospectus must include Form 34 disclosure.

(d) Exempted Issuer Bids

Subject to (e) below relating to issuer bids made through the facilities of a recognized stock exchange, the requirements of section 5 of this policy, relating to issuer bids, do not apply to issuer bids exempted under subsection 88(3) of the Act.

(e) Stock Exchange Issuer Bid

Clause 88(3)(c) of the Act exempts issuer bids from the requirements of Part XIX of the Act where the issuer bid is made through the facilities of a stock exchange recognized for the purpose in accordance with the by-laws, regulations or policies of the stock exchange. Paragraph (3) of Ontario Policy 3-42 gives conditional recognition to The Toronto Stock Exchange (the "TSE") for the purposes of this provision. The recognition is conditional on prior discussion between the TSE and the Commission of any issuer bid to be effected through the facilities of the TSE in reliance on clause 88(3)(c) of the Act. The recognition will remain conditional at least until TSE by-laws governing issuer bids have been adopted and approved by the Commission.

6. INSIDER BIDS

(a) Valuation

Subject to a waiver by the Director, or unless the maker of the insider bid is denied access to information enabling the insider to comply with this requirement, a valuation of the offeree company must be prepared in connection with an insider bid. The

valuation shall be filed with the Commission when the Take-Over Bid Circular being distributed to security holders is filed with the Commission.

(b) Disclosure

(i) Form 34 disclosure must be included in the Take-Over Bid Circular sent to security holders in connection with the insider bid. Many of the requirements of Form 34 are similar to those of Form 31 (the form for the Take-Over Bid Circular).

In particular, the disclosure required by the following items in Form 34, as modified, are considered by the Commission to be relevant in most insider bids although they may not be specifically required in the form for Take-Over Bid Circulars:

| | |
|---------|--|
| Item 10 | Reasons for the transaction |
| Item 18 | Previous Purchases and Sales (12 month period) |
| Item 20 | Valuation |
| Item 22 | Previous Distribution |
| Item 23 | Dividend Policy |
| Item 24 | Tax consequences |

(ii) Disclosure of prior valuations must be included in addition to the valuation required under 6(a) above.

(iii) A reference to judicial developments, if appropriate, should be included in the Take-Over Bid Circular.

(c) Exempted Insider Bids

Subject to (d) below relating to insider bids made through the facilities of a recognized stock exchange, the requirements of section 6 of this policy, relating to insider bids, do not apply to take-over bids exempted under subsection 88(2) of the Act.

(d) Stock Exchange Insider Bid

Clause 88(2)(a) of the Act exempts take-over bids from the requirements of Part XIX of the Act where the bid is made through the facilities of a stock exchange recognized for the purpose in accordance with the by-laws, regulations or policies of the stock exchange. Paragraph (2) of Ontario Policy 3-42 gives conditional recognition to The Toronto Stock Exchange (the "TSE") for the purposes of this provision. The recognition is conditional on prior discussion between the TSE and the Commission of any bid that

involves an offer for control, to verify that the bid is so structured as not to put at a disadvantage any subsequent competitive offer. The recognition with respect to insider bids will remain conditional until TSE by-laws governing insider bids have been adopted and approved by the Commission.

7. BUSINESS AND ASSET COMBINATIONS

The Commission is of the view that it is important, in order to maintain confidence in the integrity of the capital market, that adequate disclosure be made of complex and multi-step transactions. Such disclosure should provide a global view of the transactions and a more detailed analysis of the effect of the transaction on the security holders of each of the issuers involved in the transaction.

Certain complex business combinations are structured in such a manner that security holder approval is not required by the applicable statutes although the effect of the reorganization or combination is akin to that of an amalgamation where security holder approval would clearly be required. Issuers should give serious consideration to providing security holders with an opportunity to approve the corporate restructuring contemplated. Where the possibility exists that management or a dominant security holder may be entitled or be perceived to be entitled to some benefit or advantage as a result of the restructuring which is unavailable to other security holders the Commission believes that approval of the majority of the "minority" security holders is appropriate for each issuer involved.

Issuers proposing to proceed with such restructurings may wish to discuss these transactions with the Director in order to review the proposed level of disclosure and determine whether minority security holder approval would be preferable in the circumstances. The Commission is prepared to review the Director's views with the interested parties.

8. RIGHTS OFFERINGS, STAND-BY UNDERWRITINGS AND OPTIONS

(a) Background

The Commission has been concerned by some recent developments involving rights offerings where advantages appear to have been granted to principal security holders or their associates and affiliates. In one case a principal shareholder increased its proportionate holdings when the rights' offering was priced well above

the market with the result that the principal shareholder was one of the few security holders to take advantage of the offer. In other instances, a designated security holder agreed to take up rights not exercised by other security holders by way of a stand-by commitment. In certain of those cases the principal security holder has been granted an option on additional securities, ostensibly as consideration for having undertaken such a stand-by commitment.

The Commission recognizes that principal security holders will usually have representation on the board of directors of an issuer and may have access to accurate and current information concerning the issuer which provides such a principal security holder with a more complete insight into the affairs of the issuer. The issuer may be perceived to be granting an advantage to a principal security holder who has such an insight while similar opportunities are not made available to other public security holders. It is important that confidence in the integrity of the capital market be maintained.

A rights offering pursuant to the exemption contained in clause 71(1)(h) of the Act enables an issuer to obtain funding without the cost and regulatory burden of a full prospectus filing. The desire of a principal investor to assure the success of such an offering, through an agreement to provide a stand-by commitment, while laudatory in itself, gives rise to concern that the same opportunity to enhance proportionate holdings is not offered pro rata to other similarly interested security holders. The Commission is also concerned about the appearance of a special advantage when it is proposed to give one security holder an option on shares which is not given to all security holders in connection with a rights offering.

(b) Policy

In the absence of special circumstances which can be demonstrated to justify alternative arrangements, the Commission will object to permitting a rights offering where,

1. a principal security holder has agreed to provide a stand-by commitment to take up any securities unsubscribed for by other security holders, unless a second stage right to take up any such unsubscribed securities is offered pro rata to all security holders of the class who exercised their initial rights; or
2. options or other additional consideration are offered to any security holder in connection with the rights offering.

Further, the Commission will enquire closely into any instances in which a rights offering is priced at or above the market.

NOTICES

TAKE-OVER BIDS - PRIVATE CONTRACTS - PARTIAL BIDS

On February 19, 1981, the Ontario Securities Commission issued the following press release:

THE OSC WISHES TO GIVE TIMELY PUBLIC NOTICE FOR THE GUIDANCE OF ANY PERSONS CONSIDERING TAKEOVER BIDS THAT OSC CONSIDERS IT MAY BE CONTRARY TO THE PUBLIC INTEREST FOR AN OFFEROR TO ACQUIRE ALL OF THE HOLDINGS OF CERTAIN SHAREHOLDERS THROUGH PRIVATE CONTRACTS AND THEREAFTER IN A LINKED TRANSACTION TO OFFER FOR ONLY PART OF THE PUBLICLY-HELD SHARES.

OSC INVITES ANY PERSONS CONSIDERING SUCH LINKED TRANSACTIONS TO DISCUSS THE IMPLICATIONS OF THIS NOTICE WITH OSC STAFF. A DETAILED DRAFT STATEMENT ENLARGING UPON THE ABOVE-STATED CONCERNS OF OSC WILL BE PUBLISHED FOR COMMENT IN THE NEAR FUTURE.

AND UPON reading the application and the recommendation of the Commission's staff and hearing counsel to the Applicant and staff counsel to the Commission;

AND UPON the Commission being satisfied that to so rule would not be prejudicial to the public interest;

NOTICE

THE SECURITIES ACT, 1978

O. REG. 84/81

AMENDMENTS TO REGULATIONS TO BE EFFECTIVE
15 MARCH 1981

The Securities Act, 1978 was enacted 23 June 1978 and, with the exception of certain provisions governing resale of securities, was proclaimed in force 15 September 1979. On the coming into force of the excepted provisions on 15 March 1981 the concept of "distribution to the public" as being the circumstance that requires qualification by a prospectus disappears and the system becomes "closed" in the sense that all the situations in which securities can be distributed or resold without a prospectus will be found within the terms of objective tests set out in the Act and regulations. The 18-month transitional period was intended to provide an opportunity to assess the operation of the new provisions, anticipate any potential deficiencies in the pending "closed system" and measure the effectiveness of the new statutory "timely disclosure" and amplified continuous disclosure system that is the basis of a new set of exemptions making possible wider distribution and resale of securities without a prospectus. From its experience during the past year the Commission has determined that certain modifications must be made to the closed system before it becomes fully operational 15 March 1981. Originally, the substance of these amendments was included among a package of proposed amendments to the Act which were exposed for comment 5 December 1980. Dissolution of the Legislative Assembly intervening, it has proved necessary, with respect to measures it is considered necessary to have in place 15 March, to proceed by way of amendment to the Regulation made under the Act. Accordingly, Cabinet has approved O. Reg. 84/81 to be published in the Ontario Gazette 14 March 1981 and to be effective 15 March 1981.

The amendments:

- limit the requirement that a vendor of securities under section 71(5) determine at the time of resale that the issuer is not in default of any requirement of the Act to those "persons in a special relationship to the issuer".
- make statutory hold periods applicable to securities acquired on exercise of an option previously granted in connection with an initial trade in securities where the resale of the last mentioned securities would itself be subject to these hold periods.
- impose statutory hold periods on control bloc securities and confirm, section 71(7) as the exclusive channel for control bloc sales that are not prospectus qualified or exempted.

The amendments also make clear the power in a sheriff to sell securities under the Execution Act without registration.

The amendments together with brief explanatory notes follow this Notice.

While the Commission considered it vital that some action be taken before 15 March as to the manner in which trades by control persons be governed under the Act, it continues its review of all submissions received on the earlier proposed amendments to the Act including those commenting on the treatment, adopted pro tem in these regulations, of trades by control persons.

17a. The exemptions contained in paragraph 10 of subsection 2 of section 34, subsection 5 of section 71 and clause a of subsection 1 of section 72 of the Act apply where the securities being traded are those of a company that:

(a) is incorporated but not continued under the *British Columbia Companies Act*, S.B.C. 1973, c. 18, as amended;

(b) is not a reporting company within the meaning of section 2 of the *British Columbia Securities Act*, S.B.C. 1967, c. 45, as amended; and

(c) does not offer its securities for sale to the public.

as if the company were a private company as defined in the Act. O. Reg. 190/80, s. 6.

17b.--(1) The exemption contained in subsection 71(5) of the Act is available to a seller in respect of a first trade in securities whether or not the issuer is in default of any requirement of the Act or regulations if,

(a) the seller is not in a special relationship with the issuer; and

(b) the first trade otherwise qualifies for the exemption contained in that subsection.

(2) The exemption contained in subsection 71(5) of the Act is available to a seller who is in a special relationship with the issuer in respect of a first trade in securities by the seller if,

(a) the seller has reasonable grounds to believe that the issuer is not in default of any requirement of the Act or regulations; and

(b) the first trade otherwise qualifies for the exemption contained in that subsection.

(3) For the purposes of subsections (1) and (2), "special relationship" has the same meaning as in subsection 75(3) of the Act.

Without this amendment every vendor of securities pursuant to section 71(5) of the Act would, as of 15 March 1981, have to determine at resale that the issuer is not in default of any requirements under the Act or regulations. The amendment limits this requirement to "persons in a special relationship to the issuer."

PRESENT SECTION

RESTRICTION OF EXEMPTIONS

18.—(1) The exemption contained in clause (i) of paragraph 1 of subsection 2 of section 34 of the Act, and the corresponding exemption in clause a of subsection 1 of section 72 of the Act do not apply to bonds, debentures or other evidences of indebtedness that are subordinate in right of payment to deposits held by the issuer or guarantor of such bonds, debentures or other evidences of indebtedness.

(2) The exemptions contained in paragraph 1 of subsection 2 of section 34 and clause a of subsection 1 of section 72 of the Act for securities of a private mutual fund as defined in subparagraph ii of paragraph 32 of subsection 1 of section 1 of the Act do not apply to securities of a mutual fund administered by a trust company if there is a promoter or manager of the mutual fund other than the trust company.

AMENDED SECTION

18a.—(1) Notwithstanding subsection 71(5) of the Act, sections 52 and 61 of the Act apply to the first trade in securities by a seller acquired under the exemption contained in subclause 71(1)(f)(iii) of the Act through the exercise of a right to purchase, convert or exchange the securities where the right to purchase, convert or exchange the securities was previously acquired in connection with an initial trade exempted under clause 71(1)(a), (b), (c), (d), (i), (m) or (p) of the Act or clause 14(g) or (h) of the Act unless,

- (a) the first trade is made in accordance with subsection 71(4) of the Act; or
 - (b) the first trade is exempt under subsection 71(1) of the Act.
- (2) For the purposes of clause (1)(a), "initial exempt trade" in section 71(4) of the Act means a trade referred to in subclause 71(1)(f)(iii) of the Act.

This amendment makes the statutory hold periods applicable to securities acquired pursuant to the exercise of a right to purchase, convert or exchange previously granted in connection with an initial trade in securities where the resale of the last mentioned securities would itself be subject to these hold periods.

PRESENT SECTION

AMENDED SECTION

18b. The exemption contained in subsection 71(4) of the Act does not apply to a trade that is a distribution as defined in subparagraph 1(1)(11)(iii) of the Act.

This restriction would unequivocally make unavailable to controlling security holders of an issuer satisfaction of the conditions for resale under subsection 4 of section 71 of the Act as an alternative to meeting those prescribed under subsection 7 of section 71 of the Act.

EXPLANATORY NOTES

18c.-(1) The exemption contained in subsection 71(7) of the Act does not apply to a trade in securities unless the seller has held the securities for at least six months.

(2) Notwithstanding subsection (1), where a seller has acquired securities of a class under an exemption contained in clause 71(1)(a), (b), (c), (d), (h), (i), (j), (k), (l), (m), (n), (p) or (q) of the Act or clause 14(1)(e), (f), (g) or (h) of this Regulation, the seller shall not distribute any security of that class until all securities of the class owned by the seller have been held by the seller for,

(a) a period of at least six months after the date on which the last security of the class was acquired under an exemption referred to in this subsection, if the securities are listed and posted for trading on a stock exchange recognized for this purpose by the Commission and comply with the requirements of clause 38(1)(m) or (n) of the Insurance Act;

(b) a period of at least six months after the date on which the last security of the class was acquired under an exemption referred to in this subsection, if the securities are bonds, debentures or other evidences of indebtedness issued or guaranteed by an issuer or are preferred shares of an issuer, and comply with the requirements of clause 38(1)(k) or (m) of the Insurance Act;

(c) a period of at least one year after the date on which the last security of the class was acquired under an exemption referred to in this subsection, if the securities are listed and posted for trading on a stock exchange recognized

The present subsection 7 of section 71 of the Act, which governs trades by an issuer's controlling security holders, would, at 15 March 1981, permit a distribution from control bloc to be made prospectus-free if,

1. the issuer has been a reporting issuer for 18 months and is not in default of any requirement under the Act;
2. prior to, and periodically through, the distribution the seller makes prescribed disclosure as to the particulars of his control position and his intended trade and affirms his lack of knowledge of any material change or other material adverse information regarding the issuer not generally disclosed;
3. the seller files accelerated insider reports after the completion of each trade; and
4. no unusual effort is made to prepare the market or to create a demand for the securities.

The Commission has expressed its concern that abuses might arise through the use of subsection 7 as a technique to enable reporting issuers to effect "backdoor" underwritings without a prospectus and has acknowledged the lack of precision to the limitations on market grooming activities: Consolidated Marbenor Mines Limited et al., Weekly Summary Week ending 30 November 1979, Israel Continental Oil Company Limited, O.S.C.B. July 1980.

This amendment answers these concerns by adding to the conditions described above at 1 to 3, that the securities, or that number of securities of the class to be distributed, have been held for at least 6 months but that where the seller has acquired any securities of that class pursuant to an exempt trade cited in subsection 1 that is referred to in subsection 4 or 5 of section 71 no security of that class, however and whenever acquired, may be distributed until all securities of that class have been held by the seller for periods paralleling those prescribed in subsection 4 and running from the last exempt trade.

PRESENT SECTION

AMENDED SECTION

for this purpose by the Commission or are bonds, debentures or other evidences of indebtedness issued or guaranteed by the reporting issuer whose securities are so listed; or

- (d) a period of at least eighteen months after the date on which the last security of the class was acquired under an exemption referred to in this subsection.

PRESENT SECTION

139. Registration is not required in respect of a trade.

(a) of the kind referred to in sections 14, 16 and 17;

(aa) by a liquidator under the Canada Business Corporations Act or by a sheriff under the Execution Act;

This amendment makes clear that a sheriff can sell securities under The Execution Act without registration.

FOOTNOTE:

The Commission recognizes that it may sometimes be necessary for persons making a written submission in response to a request for comments to request that it be treated as confidential. For example, it may contain sensitive statistical information. However, the Commission hopes that requests for confidentiality will be restricted, for example by including confidential information in a separate submission or schedule and limiting the request to that separate document. Further, the Commission wishes it understood that it will take into account the unwillingness of the person concerned to make a submission available for public debate in determining what weight should be attached to the arguments advanced. Of course, other considerations may apply where the submissions are made in connection with a disciplinary or other proceeding of a quasi-judicial nature.
